ACCESSORIES

EXTERIOR

COWL COVERS

Scott Drake's Cowl Covers help eliminate water, dirt, and leaves from entering through the cowl vent. The use of Poly Methyl Methacrylate plastic (PMMA) helps prevent rusty cowls and soggy carpet that can lead to rusty floors.

Year	Desc.	P/N	List
64-66	1-Piece	ACC-16741-65	\$31.95 EA
67-68	2-Pieces	ACC-16741-67	\$31.95 EA
69-70	1-Piece	ACC-16741-69	\$31.95 EA

HI PERFORMANCE MOTORS LICENSE PLATE FRAME

Beautiful reproduction of this very rare license plate frame originally available at Shelby's Southern California dealership "Hi Performance Motors" in the 60's. Customers couldn't buy new Shelbys there because it wasn't technically a Ford dealership. But they could buy Cobras, company cars or used Shelbys right from the factory dealership. Only a fraction of all the Cobras and Shelbys were sold through Hi Performance Motors, making these frames highly sought after and extremely valuable.

Desc.	P/N	List
Hi-Performance Motors	ACC-LPF-HPM	\$49.95 EA

1965-69 CALIFORNIA LICENSE PLATE

Nothing embodies cool, classic car spirit than the California "Black & Yellow" license plates of the 1960's. Why else did the CA DMV bring

them back? This design is cherished by classic car enthusiasts as they are synonymous with rust free and original classic cars in all makes and models. Scott Drake's version is real stamped aluminum with raised numbers and letters not simply silk screened like others.

FEATURED ITEM

FENDER GRIPPER

Protect your investment with an Original Fender Gripper™ from Scott Drake. They offer the highest degree of protection from impact and scratches while you work on your car. Each Fender Gripper is made from a unique reinforced foam padding that provides superior grip to keep it in place and prevents tools from sliding off even at extreme angles. This material is resistant to most petroleum based chemicals like motor oil as well as carb cleaner, brake fluid and anti-freeze. They are also 100% washable. Sold individually. **For the most up-to-date list of Fender Gripper products, please visit FenderGripper.com**

BRAKES

BRAKE CONVERSION KIT

FEATURED ITEM

SCOTT DRAKE PREMIUM DISC BRAKE CONVERSION KITS

Upgrade the front drum brakes on your classic Mustang or Ford with a premium disc brake conversion kit from Scott Drake. These complete bolt-on systems includes everything needed to convert the Mustangs front drum brakes to factory style 4 piston disc brakes utilizing the original V8 drum brake spindles. There is no cutting, drilling or welding required. Each kit consists of all new components with premium features like zinc plated calipers loaded with stainless steel pistons and an adjustable proportioning valve. A new brake booster, master cylinder and pre-bent brake lines are also included. Get dependable performance and keep the factory look with a Scott Drake disc brake conversion kit. Will not fit factory stock steel rims smaller than 14x6.

WILWOOD DISC BRAKE CONVERSION KIT

Designed specifically for the five lug first generation Mustang. Designed to fit many popular stock 14.00" steel and aluminum wheels. 11.30" diameter vented plain face or by special order drilled and slotted rotors. Install on both OE drum and disc brake spindles. Forged Dynalite Calipers provide big clamping power in a truly lightweight, rigid and reliable design. Designed for optimal clearance. Black anodized. Rotors include bearings and seals. Kits include BP-10 metallic-composite compound "Smart Pads". BP-10 delivers the increased friction; higher fade resistance and longer wear of an entry-level track pad, with virtually noise and dust free performance for the street. Caliper brackets, premium grade hardware and detailed installation instructions are included in every kit. Jacketed stainless steel braided DOT approved flex lines are included.

POWER ASSIST

DUAL CHAMBER POWER BRAKE CONVERSION KIT

This setup utilizes a new power brake booster with increased sensitivity, new large capacity dual chamber master cylinder, specially designed mounting bracket to allow direct bolt in while retaining original brake pedal assembly and clearance of the shock tower.*
Note: Booster requires a minimum 15 inches of engine vacuum pressure at idle for maximum

stopping power. Some high performance high lift camshafts may not create enough vacuum. Stock engine vacuum pressure is 18 inches. 1 year warranty. Picture for reference only. Check website for actual picture of each kit. *(Note: PBC-M1 & PBC-M2 require notching factory shock tower brace. Export brace recommended.) Will not fit cars with factory power brakes. Installation instructions are not included, as this kit should be installed by a trained professional. We recommend part number PBC-MCL to ease installation. Early cars may also require a brake distribution block. Note: Original Master Cylinders had Left Hand Ports, a few of the below kits have Right Hand (RH) ports as noted.

Year	Desc.	P/N	List

ORIGINAL STYLE BRAKE BOOSTER WITH DISC BRAKE MC

This original Bendix Style Booster is a direct replacement for 67-69 Cars with original Power Disc Brakes. Will

also replace Midland Style Boosters as well. Can only be used with Power Brake Pedals, not compatible with Manual Brake Pedals. If you wish to run this Booster set-Up on a Manual Brake car then you must order appropriate Power Brake Pedal as well. Will not Fit 1970.

Year	P/N	List
67-69	C7Z-2005/2140	\$349.95 SE

ORIGINAL-STYLE REPLACEMENT POWER BRAKE BOOSTER

Bendix style replacement boosters. 8" Dual diaphragm. Will only fit onto original power brake pedals.

Year	P/N	List
67-69	C7ZZ-2005-BDX	\$289.95 EA
70	D0ZZ-2005-BDX	\$289.95 EA

DISC BRAKE PROPORTIONING VALVE

This aftermarket proportioning valve is far superior to the original equipment. Fully adjustable for tuning front to rear brake bias. Requires some routing

modifications of brake lines for proper fit. Includes adapter fittings

Year	Desc.	P/N	List
64-73	Adjustable	C5ZZ-2B091-R	\$62.95 EA
67-69	Concours	C70Z-2B091-B	\$74.95 EA

DISTRIBUTION BLOCK WITH PROPORTIONING VALVE

Adjustable proportioning valve and distribution block all-in-one. Simplifies your brake plumbing! Available in a black

anodized or polished finish. Accepts 3/16" brake line. Adjustable proportioning valve regulates rear brake pressure, helping to maintain correct brake bias between front and rear brakes. Easy to turn handle with directional arrows makes it simple to either increase or decrease rear brake pressure. Designed for dual bowl master cylinders. Distribution block connects to the master cylinder and distributes brake fluid to all four wheels. Includes 2 inlets from master cylinder, 2 outlets to front brakes and 1 outlet to rear brakes. Includes 5 stainless steel 3/16" fittings. Includes wiring pigtail for rear brake light switch. Mount to any convenient location. ***Note: This is not a direct factory replacement for original blocks and some line modifications may be necessary.**

Year	Desc.	P/N	List
64-73	Black anodized	A0730	\$124.95 EA
64-73	Polished	A0730P	\$149.95 EA

PROPORTIONING VALVE REBUILD KIT

Rebuild your proportioning valve and stop leaks. Kit includes 4 seals and retaining ring. **Note: On 65-66, Ford had two versions, externally identical but internally different. This kit fits the early version. Not returnable if opened.**

Year	P/N	List
65-66	C5ZZ-2B091-K	\$24.95 KI
67-69	C7ZZ-2B091-K	\$45.95 EA

BRAKE DISTRIBUTION BLOCK

These are late model units that are not direct replacements and will require bending brake lines. Highly recommend when converting 64-66 over to dual chamber master cylinder. D0ZZ version is the same except the bracket is reverse so it is more compatible with original 1970 PDB cars. C5ZZ is the same as C7ZZ but w/o brake pressure switch.

ELECTRIC HIGH PRESSURE MASTER CYLINDER

This polished aluminum master cylinder is the answer for Mustang owners with special brake needs. Lack of space because of a big motor, lack of vacuum caused

by big cams, blown or supercharged engines, or are you just looking for a superior looking unit that does not hang out so far from the firewall? This unit is a unique self-contained booster that is not dependent on engine vacuum booster or a steering pump, yet is capable of generating up to 2500 lbs of line pressure. It features a larger bore than most cylinders so it can handle single or multi-piston calipers, but still gives you a solid pedal.

Year	P/N	List
64-73	PBC-EHPMC	\$1,429.95 KI

MASTER CYLINDER PUSHROD BUSHING

Made of black ABS. Required to reduce brake pedal slop and eliminate noise from metal on metal when applying brakes.

Year	P/N	List

1964-66 CLASSIC MUSTANG* V8 SPINDLES

These spindles were obsoleted long ago by Ford and have become increasingly expensive and extremely difficult to find and now Scott Drake has the answer. Our Engineering team started with a set of

used, but excellent condition, Ford originals, to create 3D scans which were then used for CAD modeling and then double checked against original Ford blueprints. No corners were cut on this critical component –they were constructed from FORGED JIS S45C grade steel, then we applied a protective, black e-coating and then all surfaces were precision machined. We took special care to ensure bearing tolerances were identical to Ford's. For an extra measure of safety and durability, the spindle snout was also heat-treated via induction hardening. They are a must-have when performing a V8 conversion on 6-cylinder cars.

BILLET E-BRAKE HANDLE

The original parking brake handle on 64-68 Mustangs were made of plastic and are prone to cracking over time. Scott Drake has the perfect solution with these billet aluminum parking brake handles. This design is modeled after the original 64-66 plastic brake handle with a smooth shape and textured details. Unlike the original handles, these

are guaranteed to never crack. They have a durable anodized finish and are available in black for a stock appearance or natural aluminum for a custom restomod look. These handles install easily and are held in place with an allen set screw. **Note: Will also fit 67-68 cars but does not match original appearance.**

CONVERTIBLE TOP WITH GLASS BACK WINDOW

Glass rear windows enhance rear visibility. They are not prone to scratching, cracking, or yellowing due to sun exposure. Robbins heat-seals glass into glass window assemblies using the same equipment and techniques as Ford and other OEM convertible manufacturers. They do not use inferior methods that produce weak bonds, such as gluing them with silicon. All of our tops feature: Assembled header-bow bulb seal, specially treated vinyl to resist mildew, 3 year pro-rated warranty, coated vinyl for extra waterproofing, factory original pinpoint grain, heavy duty YKK nylon zipper, includes wire-on feature strip with stainless tips and screws, and meets motor vehicle fire retardant requirements. Stock colors are black and white, however we can special order Tan, Dark Blue, Brown, and Saddle. Special Order colors are non-returnable and have a \$30 upcharge. 1964-70 rear windows feature Robbins patented "Flex-Hinge" folding seam. 1971-73 are solid glass. 1964-66 must use convertible well liner part number WL-FM-67-BK. Glass rear window and top are packaged in a single box for reduced shipping cost.

Year	Desc.	P/N	List

CONVERTIBLE TOP W/ PLASTIC BACK WINDOW

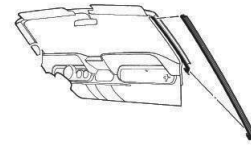

Robbins tops are manufactured using OEM quality vinyl from Haartz, which is specially treated vinyl to resist mildew. They feature heat-sealed reinforcements for added strength and to prevent shrinkage in panels. Although gluing is faster and cheaper, glued reinforcements often bubble or fail over time. Heat-sealed reinforcements don't. Plastic window is made using the same Haartz vinyl, and OEM quality 40 gauge clear PVC. Stock colors are black and white, however we can special order Tan, Dark Blue, Brown, and Saddle. Special Order colors are non-returnable and have a \$30 upcharge. All of our tops feature: Assembled header-bow bulb seal, 3 year pro-rated warranty, factory original pinpoint grain, heavy duty YKK nylon zipper. Original brass zipper available as a special order, upcharge \$40. Includes wire-on feature strip with stainless tips and screws. Meets motor vehicle fire retardant requirements.

FEATURED ITEM

Add the perfect finishing touch to your engine compartment with this officially licensed FoMoCo stainless steel hose clamp kit from Scott Drake. This 16-piece kit contains all of the heating, cooling and fuel line hose clamps needed for a 260/289/302/351 V8 Mustang or Ford. Each stainless steel clamp features a dependable worm gear design and is correctly sized so there isn't a long unsightly tail of the clamp hanging loose. All of the clamps except for the 5/16" - 3/8" are stamped with the classic FoMoCo logo. Kit includes: 2 lower radiator 2-1/8" clamps, 2 upper radiator 2" clamps, 6 heater / thermostat bypass 5/8" clamps, 6 fuel line / sending unit 5/16" - 3/8" clamps. **Note: Will not fit 6 cylinder. Kit will also work on Big Blocks with the exception of one lower radiator clamp at the water pump is too small. Fuel line clamps do not have FoMoCo logo.**

ELECTRIC FAN AND SHROUD KIT

This kit increases cooling capabilities especially at idle and low RPM. Tired of overheating in traffic? This easy to install kit is not a universal kit. It is made specifically to fit Scott Drake 259 radiators. No extra holes to drill. Also improves horsepower and economy. Instructions included. C3DZ-8146/8600H pictured.

Year	Desc.	P/N	List
64-66	Electric Fan and Shroud for copper/brass radiators	C3DZ-8146/8600H	\$341.25 KI

Keep your Mustang running cool with this electric fan shroud kit designed specifically to fit Scott Drake 259

series aluminum 2-row radiators. This kit is built around a high performance 16" Spal 10 straight blade fan rated at 1650 CFM. Strategically placed pass-through flaps at each corner allow increased air flow at cruising speeds for maximum efficiency. Shroud and fan thickness is 3 1/4". Fan amp draw: 11amps. Kit includes: wiring harness, relay, and an adjustable thermostatic switch neatly mounted to the shroud on powder coated brackets.

Year	Desc.	P/N	List
64-66	Electric Fan and Shroud Kit for Aluminum Radiators	C3DZ-8146/8600A	\$351.75 KI

1967-69 Mustang Premium 20 inch Electric Fan and Shroud that will not fit 340-4 or 340-2AL.

BILLET RADIATOR CAP

Another custom billet aluminum product from Scott Drake. We made a clear anodized aluminum top and mated it with a stock Motorcraft™ cap. **See Engine section for matching caps!**

Year	Desc.	P/N	List
64-73	Billet	B-8100	\$35.95 EA

RADIATOR CAP W/ ELECTROLYSIS PROTECTION

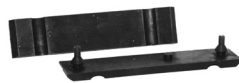

A special radiator cap that includes a sacrificial magnesium anode that protects aluminum and other soft material engine components from electrolysis. Electrolytic Metal Erosion (EME) is slowly destroying your engine components.

EME attacks timing chain covers, radiators, heater cores, intake manifolds, freeze plugs, head gaskets, thermostat housings even cylinder heads causing premature failures. By allowing EME to attack the sacrificial anode, the "Rad Cap" protects your engine while driving or in storage.

Year	Desc.	P/N	List
64-73	W/ sacrificial anode	C5ZZ-8100-RC-E	\$18.50 EA

RADIATOR MOUNTING

RADIATOR INSULATOR

SHELBY ALUMINUM RADIATOR

Scott Drake's new 1965-66 Mustang performance aluminum radiator is a fantastic upgrade to your OEM radiator. This official Shelby

product is engineered with an upper internal baffle that improves coolant distribution for optimized cooling efficiency. Our radiators are constructed from aircraft-quality aluminum and feature a fully TIG welded tank. Comes with an integrated automatic transmission cooler that ensures your fluid and components are working to their peak potential. Includes a die cast chrome plated Shelby emblem on the tank and a black Shelby logo across the front fins.

**1964½-66 MUSTANG V8 PREMIUM
3-CORE, COPPER / BRASS**

RADIATOR

Get improved cooling efficiency while maintaining the look of original equipment with new Scott Drake premium 3-core copper / brass radiators for 1964.5-66 Mustangs with small block

V8's. These high performance radiators are designed to provide superior thermal transfer compared to standard 2 core units. They feature durable copper / brass construction and a high capacity 3 row internal design for long lasting performance. These radiators also include an integrated automatic transmission cooler, an over-flow tube routed off of the upper fill neck, and a petcock drain off the lower tank for easy set up and maintenance. These radiators are designed specifically for 64½-66 Mustangs with 260, 289 and early 302 engines.

SMALL BLOCK FORD BILLET ALUMINUM SWIVEL WATERNECK

This custom Thermostat Housing is machined from billet aluminum. Its 2-piece design allows it to fully rotate to perfectly fit for your particular application.

This Scott Drake exclusive was designed for classic car applications that require a 45 degree angle. Do not confuse this with the common 90 degree angle version used on later model applications. Will fit 260, 289, 302 and 351W engines installed on most 1960 and 1970 Ford Cars and Trucks. Rubber O-Ring Seals ensure a leak proof installation and comes with mounting hardware.

FOG LAMPS

G.T. FOG LIGHT BULB

Restore your mustang back to showroom condition by replacing your cracked or damaged fog lamps with a new glass set

from Scott Drake. Our 4 1/2" 1965-68 Mustang Fog Lamps have a unique styled GT logo on the lens center. These high quality fog lamps have the brightest illumination available on the market for improved visibility. Featuring authentic USA, F52, and FOG markings on the lens, just like the original. The amber lenses are manufactured with strict quality control consistency for the greatest visibility under foggy road conditions. This is a direct replacement and it is available in clear or amber.

FOMOCO HALOGEN HEADLIGHTS

Now available from Scott Drake, FoMoCo Halogen Headlights featuring authentic Ford markings and upgraded Halogen performance. This is a reproduction of a very desirable and rare version headlight used on Classic Mustangs. We took NOS new original Ford bulbs and duplicated them in appearance while improving them with Halogen lighting technology. Halogen headlights produce more than double the lighting power of original Tungsten bulbs. Perfect for drivers or trailer queens, a great safety improvement while maintaining an original look. Over the years Ford offered two FoMoCo script versions: one sand blasted etched logo, and the other a prominent reverse raised FoMoCo logo about 7/8" wide. We chose to reproduce the rare, highly sought reverse raised logo version, which is more attractive and easier to read. Approved by Ford as an official licensed product.

68	No tachometer	C8ZZ-14401-ICF	\$114.95 EA

PRINTED INSTRUMENT PANEL CIRCUIT

Great product, this is a complete printed circuit to eliminate those dash electrical problems.

Year	Desc.	P/N	List
69-70	W/out tachometer	C9ZZ-10K843-A	\$49.95 EA
69-70	W/tachometer	C9ZZ-10K843-T	\$79.95 EA

INSTRUMENT BULB SOCKET

This plastic and metal socket takes a #194 bulb and twists into backside of instrument housing.

Year	Desc.	P/N	List
69-70	Bulb Socket	C80Z-13711-B	\$4.50 EA

INSTRUMENT GAUGE INSULATOR

69-70 cars requires 4 insulators and 71-73 cars require 1 insulator.

Year	Desc.	P/N	List
69-73	Gauge Insulators	C9ZZ-10914	\$6.25 EA

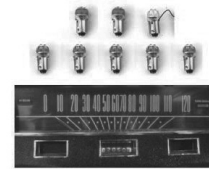

INSTRUMENT VOLTAGE REGULATOR

From Scott Drake, these Instrument Voltage Regulators feature an improved design to be more reliable and accurate in varying environments (heat, humidity, etc.). Features solid state electronic circuitry and variable control. Preset to factory specifications but adjustable to fine-tune your gauges.

Year	P/N	List
64-66	B9MZ-10804-EADJ	\$39.95 EA
67-68	C6DZ-10804-EADJ	\$39.95 EA
69-73	C9AZ-10804-EADJ	\$39.95 EA

INSTRUMENT PANEL LED LIGHTS

Finally see your gauges at night with cool-running, lifetime LED's. 4x brighter than old incandescents! Each kit is warranted

for the life of your car, and includes gauge illumination lights (blue), turn signal indicator lights (white), and high-beam light (white/red). These kits use your existing gauges -- you just replace the bulbs! Lifetime warranty!

Year	Desc.	P/N	List

FEATURED ITEM

PREMIUM UNDER DASH HARNESS

Scott Drake has the solution to your electrical problems with this Premium Under-Dash Wiring Harness with Relays. This Scott Drake exclusive was designed to look like an OE harness but with a modern 12 circuit ATC fuse block and relays for improved performance and reliability. Each harness is tailored to exact specifications with proper molded connectors and correct colored wires for a "plug and play" installation. There's also room for expansion with spare hot and keyed terminals in the fusebox. **Note: 1965-66 harnesses do not include Wiper Motor Loom. Refer to Wiper Motor Looms below.**

Year	Desc.	P/N	List

IGNITION SWITCH PIGTAIL

Scott Drakes 1968-69 Mustang Ignition Switch Repair is a plug-in pig tail harness

that promises to make repairing your Ignition Harness at the back of the switch, both easy and affordable. In keeping with the high standards that made Scott Drake the industry leader, all of the wires in the harness are correct color coded wires. Repairs both Factory Tach and Non-Tach Harness. Includes full length resistor wire. Depending on application all wires may not be used.

Year	P/N	List

LED SEQUENTIAL TAIL LIGHT KIT (EASY INSTALL)

180 Superbright LED Lamps!

Drake Automotive Group has teamed up with an industry leader in LED Sequential Tail Light systems for the Ford Mustang. With patented "Smart-signal" technology and exclusive "Batwing" design, these kits offer easy hassle-free installation with no splicing required! These LED's are up to 5 times brighter than stock lights but run cooler and use less energy than traditional bulbs, so they won't melt your lenses. Each

kit works with stock lenses and housings, so there is nothing extra to buy. Lifetime warranty! **Please note: sequencing speed is not adjustable.**

FEATURED ITEM

RESTOMOD BILLET ALUMINUM BATTERY TRAY KITS

Add some style under your hood with a Scott Drake Restomod Billet Aluminum Battery Tray designed specifically for classic Mustangs. Unlike other universal trays

that require drilling, grinding, shims, additional bracing and modifications, this system is designed as a direct bolt-on in the factory location on the front apron. This kit installs easily with the correct support to safely secure most group 24 batteries and dress up the engine compartment with a cool custom look. A sculpted aluminum hold down bracket, high quality stainless steel hardware and thorough instructions are included for a professional installation.

ENGINE

AIR CLEANERS & VALVE COVERS

DOUBLE HUMP HIPO AIR CLEANER

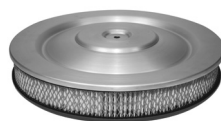

A Scott Drake is proud to announce the release of new reproduction "Double Hump" HiPo Air Cleaner Assemblies.

These authentic units are modeled after the extremely rare 14" air cleaners that were standard on 260 Sprint and early HiPo 289s found in 1964-1/2 - 1965 Mustang, 1963 - 1965 Ford Falcon, 1963 - 1964 Shelby Cobra, 1963 - 1965 Ford Fairlane, 1963 - 1965 Falcon Sprint, and 1965 Shelybs. Unlike other HiPo air cleaner assemblies, these feature a unique "Double Hump" chrome lid rather than the more common "flat top" lid used on later model HiPo engines. The lid also has two indents to lock the wing-nut in place securely. The base of the assembly omits the breather port and is finished in a semi-gloss black like the originals. Attention was paid to the filter as well to match the original design with a yellow filter element, a round hole perforated screen and orange gasket material to complete the authentic appearance. Make your restoration or clone stand out from the crowd with this premium quality reproduction of the highly sought after "double hump" air cleaner. Like all Scott Drake products, these are backed by the Scott Drake Satisfaction Guarantee.

Year	Desc.	P/N	List
63-65	Double hump	C4DZ-9600-C	\$89.95 SE

14" SPUN ALUMINUM HIPO AIR CLEANER ASSEMBLY

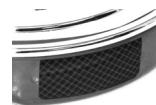

Add a custom hot rod look under the hood of your car with the Scott Drake 14" aluminum HiPo air cleaner assembly.

These high performance air cleaners are modeled after the chrome "flat-top" HiPo air cleaners that originally came on K-code Mustangs. These feature a brushed finish aluminum lid, a high flow white filter element and a blue stamped steel base. The base is equipped with a PCV port on the bottom. These are engineered to fit most brands of Ford 2v and 4v carburetors. Like all Scott Drake products, these are backed by the Scott Drake 100% satisfaction guarantee. **Note: Air cleaner stud and wing nut sold separately.**

Year	Desc.	P/N	List

390 GT/428 AIR CLEANER ASSEMBLY

New by Scott drake is the extremely rare 1967 Mustang 390 GT High Performance Air Cleaner without the emissions control tube. This air cleaner is a Concours Reproduction that includes blue base and chrome lid. This is also an excellent stock appearing performance upgrade for the very restrictive 68-70 390-428 Air Cleaners. Some early production 1968 390 GT's may have come factory with this air cleaner. For California Emissions see part C7ZZ-9600-E. **Note: the outside dimension of the lid is 16.75" and will not fit the more common 17" versions.**

CHROME HIPO AIR CLEANER ASSEMBLY WITH OFFSET BASE

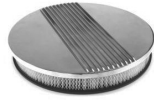

This Scott Drake air cleaner is designed specifically for classic small block powered Fords equipped with larger aftermarket

distributors like HEI. From the top it looks like a standard HiPo air cleaner but the base has an offset opening that shifts the assembly back about 1-1/2" providing the needed extra clearance for the distributor. Each kit includes a chrome HiPo air cleaner lid, an offset base finished in Ford blue, a white air filter element, an air cleaner stud and wing nut. This air cleaner will work

with most 2v and 4v carburetors. **Note: Base does not have a PCV port. Decals sold separately. Also fits Falcon, Fairlane, Cougar, Comet, Ranchero and Torino.**

POWER BY FORD

CLASSIC ALUMINUM VALVE COVERS

Made by Scott Drake, Classic Aluminum Valve Covers for small block Ford engines! These valve covers are die-cast from high-quality 383-3 aluminum alloy, & then given a durable powder-coated wrinkled finish or

polished aluminum finish. They also feature a cadmium plated oil filler tube to help stop corrosion, an improved oil baffle design to accommodate high-lift cam shafts, & will work with most roller rockers. Spark plug wire brackets & PCV grommet included. Available in a variety of styles. Will not fit EFI cars. **Note: "COBRA" (S1MS-6A582-P version will not clear roller rockers. We recommend S2MS-6584-C Valve Cover Gaskets.**

DISTRIBUTOR

IGNITOR CONVERSION

Never change points again, plus increase horsepower and improve fuel economy. Fits entirely under the distributor cap, with no "black box" to clutter the

engine compartment. Installs in minutes, and is completely hidden. Other benefits: Test results show the Ignitor delivers twice the voltage to the spark plugs. No limits to coil

and spark energy (spark energy is limited by the coil). A 2:1 improvement over "point type" systems in current fall time. Stable timing with no need for periodic adjustments. Increase spark plug life by 2 to 3 times. No contacts to burn, pit and corrode. No moving and rubbing parts to wear out. Better foul weather performance.

Year	Desc.	P/N	List
64-73	6 cyl.	IGN-1261	\$102.50 KI

64-73	High power V8	IGN-1281-2	\$138.50 EA

HIGH POWER IGNITOR CONVERSION

The Ignitor II takes the Ignitor a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM

range. Ignitor II offers enhanced performance levels only found in more expensive box type ignition systems. Compared to point type systems Ignitor II develops on average 4 times more available energy between 3,000 and 5,000 RPM, and 2 times more available plug voltage. Higher RPM performance is improved when used with the Flame-Thrower II super low resistance 45,000 volt coil.

FEATURED ITEM

ENGINE STATUS MONITORING SYSTEM

EngineStat is a small black box that fits in engine compartment easily clips-on to the car's existing wiring. This little black box brings the sophistication of on-board computer diagnostics to your classic car. It will continuously monitor critical engine parameters via the easy clip on interface and transmit these to your smartphone. Kit includes engine module, wiring, connectors, and complete installation instructions. Download the An-droid app from the Google Play store. Iphone app is also available. 4 year limited warranty. EngineStat monitors the following critical parameters: oil pressure, temperature, voltage battery and har-ness, vacuum, and RPM. Phone app will alert you even if the app is close or phone is in sleep mode. FOR CARS WITH OIL PRESSURE INDICATOR LAMPS MADE PRIOR TO 1979, use adaptor kit ENG-STAT-OPGA for cars with oil pressure gauges.

PERTRONIX SPARK PLUG WIRE SETS

These low resistance, high performance wire sets feature two current paths. One path is spiral wound stainless steel alloy and the other is a carbon

impregnated fiberglass center core. Other features include low 500 ohm per foot resistance. Silicone jackets used to resist high temperatures, moisture, oil and chemicals. EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Fiberglass reinforcing braid for added strength and flexibility. Available in red, blue and black, these spark plug wires come with a lifetime warranty and are made in the U.S.A.

CONCOURS 289 HIPO MOTOR MOUNT KIT

This Complete kit included everything needed for either a 1964-1965 "K" code 289 HiPo Mustang or 65 and Early 66

Shelby GT350's. This design is much more stronger than factory 64-66 Mustang Engine Mounts which fail quickly when exposed to excessive Torque and Horsepower. These are exact Copies of the Originals. Includes Lower Cast Frame Brackets with Part Numbers, Intermediate Brackets, Upper Engine Brackets, Main Rubber Mounts, Donut Rubber Isolators and all necessary correct hardware for a trouble free Installation. Originally these Brackets were raw and quickly surface rusted, ours are painted a natural steel color so it will look like new for many years.

Year	Desc.	P/N	List
64-65	Complete kit	CSZZ-6028/9-HPK	\$449.95 KI

These Stamped Steel bracket are stamped and formed exactly like original and an excellent reproduction of the one used on all factory 289

HiPo Cars including Shelys. This bracket bolts directly to the Block. Painted a natural steel color.

Year	Desc.	P/N	List
64-65	Upper Steel Stamped Brackets	C30Z-6046-A	\$99.95 PR

The Cast Iron Brackets are identical to original 289 HiPo Brackets used on the "K" although similar in appearance

to standard 1965 Cast Iron brackets they are not interchangeable and must be used when utilizing other HiPo Engine Mount Components. Original Part Numbers cast into the part. Concours Correct. Painted a natural steel color for longevity.

Year	Desc.	P/N	List
64-65	Lower Cast Iron Brackets	CSZZ-6030/1-A	\$199.95 PR

These Stamped Steel Brackets are stamped, formed and welded exactly like original and an excellent reproduction

of the ones used on all 289 HiPo Engines. This bracket fits in between Cast Iron Frame Bracket and Upper Engine Bracket. Painted a natural steel color.

Year	Desc.	P/N	List

CAL CUSTOM OIL PAN

Scott Drake is proud to reintroduce the famous "Cal Custom" aluminum finned oil pan that was so popular throughout the 60's, 70's and 80's. It has not been available for P/Ns, but it is back again and now even better than before! Not only do these pans look great fully polished with raised fins but they also offer the added benefit of reducing oil temperature to help your engine run cooler. We have even added a strong magnetic drain plug to help protect your engine from destructive metallic particles floating in your oil. These Oil Pans fit: 260, 289, and 302. Also available "Cal Custom" Aluminum Finned Valve Covers (C5ZZ-6A582-AF) and Air Cleaner (C5ZZ-9600-AFK)

FEATURED ITEM

1964-73 DUAL PORT OIL PRESSURE EXTENSION

This OE looking oil pressure extension allows the use of a factory gauge or warning lamp. Additionally, we have included an auxiliary 1/8" NPT fitting to accommodate an aftermarket gauge or sensor. This can also be useful in forced induction applications where an additional oil feed line is required to cool/lubricate the main system. Easy to install and removes the need for miscellaneous T-fittings and adapters when multiple oil ports are required. Offered in zinc-plated steel for a long lasting finish.

EXHAUST SYSTEM

HI-PERFORMANCE

6 CYL. EXHAUST HEADERS

We believe that a properly modified 6 cyl. will put out as much usable low RPM horsepower as a V8. We offer both the single and dual outlet versions. Single outlet is recommended if no other modifications will be made. Dual outlets work best with Hi-Po Camshaft, 2V carb and Pertronix Ignitor. Single outlet also works well with these modifications. Dual outlet is for customers that want the look and sound of a V8. We recommend buying an exhaust port divider (part # C3OZ-9430-EPD) which smooths out air flow between the #3 and #4 cylinder. Will fit Mustangs, Falcons, Rancheros, Comets, Fairlanes, Torinos, and Mavericks.

64-73: Single outlet, nickel plated, fits 170, 200, 250
C3OZ-9430-H1

List
\$399.95 KI

64-69: Dual outlet, nickel plated, fits 170, 200

SHORTY EXHAUST HEADERS

Note: 64-65 Mustangs will require 1966-1970 motor mounts and brackets for proper clearance (see "Engine" category). Quality header at an affordable price. Nickel plated. Will not fit 67-68 manual transmission cars. **These will not fit late model 302 "P" heads.**

Year	Desc.	P/N	List
64-70	15/8" shorty	CSZZ-9430-SH	\$404.95 EA

FEATURED ITEM

289-302 SHORTY HEADERS (1964-70)

Due to popular demand Scott Drake now offer superior quality "Shorty" headers. Shorty headers eliminate steering system and bell housing clearance issues associated with most long tube and Tri-Y headers. They feature extra thick 3/8" flanges, 12 gauge 1 5/8" primary tubes and 2.5" ball and socket collector for ease of install and a leak free installation. Includes necessary mounting hardware and premium gaskets. For 1964 through 1970 Mustangs with 260, 289 or 302 engines. **Note: 64/65 cars may require either 66/70 motor mounts and brackets or 1/4 inch spacers on stock mounts for proper clearance. 67-68 manual transmission cars will have to modify the clutch equalizer bar. These will not fit late model 302 "P" heads. EFI cars require C6TZ-9430-RCO2 Reducer Cones.**

MODIFIED TRI-Y EXHAUST HEADERS

Made by Scott Drake, these Tri-Y Headers resemble traditional Tri-Y's in appearance, with subtle changes to enhance fit and performance! 16 Gauge Tubes are CNC mandrel bent, then carefully installed in our precision engineered welding jig for a perfect fit, and precision welded by a master craftsman. Many hours have been invested on making these fit and perform. They have been fitted on multiple applications and we find them superior to previous suppliers. These fit both automatic and manual transmissions with the more common 157 Tooth small bell housing, along with extra clearance for starter, mounting flange bolts can easily be accessed and they clear Shock

Made by Scott Drake, these Tri-Y Headers resemble traditional Tri-Y's in appearance, with subtle changes to enhance fit and

Towers.* Provides full articulation of steering assembly without interference. **Note: Power Steering cars require Drop Down Bracket see below. Cars with the larger Bellhousing for 164 Tooth Flywheel will need to dimple header and possibly remove a minimal amount of material on Bellhousing as well for proper clearance. We have also shortened the collector tubes to improve floor pan clearance. Over forty years of Mustang modifications have resulted in endless configurations and combinations, but we believe this product offers the best overall fit and appearance so far. Fits 260, 289, and 302. All Headers include extra thick 5/16 inch flanges to prevent warping which are precision ground. Metal composite flange gaskets, 1 1/2 inch Primaries, 1 3/4 inch Secondary's and 2 1/2 inch Collectors. Includes Reducer Cones which taper to 2 inches with gaskets and all necessary mounting hardware. These will not fit late model 302 "P" heads.**

Year	Desc.	P/N	List
64-68	Black painted	CSZZ-9430-BK	\$184.95 PR

304 Stainless Steel

Our stainless steel version features Polished Stainless construction, including the 5/16 inch mounting flange, most manufacturers call their headers all stainless, but actually use regular steel which is nickel plated steel to reduce costs. Ours are all 100% Stainless Steel right down to the flange mounting bolts. The best money can buy, no corners have been cut.

Year	Desc.	P/N	List
64-68	304 Polished Stainless Steel	CSZZ-9430-SS	\$324.95 PR
64-68	Silver Ceramic Coating	CSZZ-9430-CC	\$374.95 SE

***Note: 64-65 V8 Engine Mounts sit the engine approximately 1/4" lower than the 66 and up mounts. Although unlikely, it may be required to shim your engine up especially if mounts are older and have partially collapsed to gain more shock tower clearance. This can be done simply with some washers.**

TRI-Y EXHAUST HEADERS

These feature 1/4" flanges, miter cut 16 gauge tubes & are precision Mig welded to ensure a proper fit & eliminate exhaust leaks. Comes boxed complete with premium gaskets, all necessary mounting hardware & reducer cones. Fits 260, 289, and 302. **These will not fit late model 302 "P" heads.**

PERFORMANCE EXHAUST SYSTEM

These Exhaust products are of premium quality and made to original factory specifications in the USA. Only the heaviest gauge aluminized tubing available is used for these Exhaust Systems. Mufflers have correct factory brackets when needed and are also aluminized to eliminate early rust out. All Kits are compression bent just like originals for that Concours look. H-Pipes and Hanger kits are sold separately. This has exact same bends and Curves as original 2" Exhaust systems. If running Factory GT Exhaust Tips modification is requires on end of Tail Pipe and Exhaust Tip. Also due to very tight clearances on Convertibles in the Seat Pan Reinforcement Area. Professional Installation is recommended especially for Convertibles.

Year	Desc.	P/N	List

CONCOURS 1965-66 GT EXHAUST TIPS

Made by Scott Drake these are the finest reproductions available and are a must for any

concours restoration. Correct deep draw louvered stamping, no visible welded seam on a highly polished stainless steel cone, perfect fit between louvered cap and stainless steel cone. Easy install on our original 2" exhaust systems.

Year	Desc.	P/N	List
65-66	GT, concours	CSZZ-5255-PRO	\$102.50 PR

HIGH-FLOW 1965-66 GT EXHAUST TIPS

These are a Scott Drake Exclusive! We take our concours tips, use a larger diameter straight 2" pipe (easily expanded to 2.25"),

and open up louvers for a better flow while still offering a factory appearance. These flow over 20% better than original restrictive tips, a must for any high-horsepower car. Not a direct fit to original exhaust systems.

Year	Desc.	P/N	List
65-66	GT, 2" high-flow	CSZZ-5255-GT2	\$102.50 PR

FREE-FLOW 1965-66 GT EXHAUST TIPS

Get increased exhaust flow with Scott Drake Max-Flow exhaust tips. These high performance tips

are mod-eled after the Ford Factory high-flow 65-66 GT exhaust tips, but without the decorative stamped louvered exit for maximum flow. They feature large diameter 2" straight mild steel tubing painted black for corrosion protection. The tubing can easily be expanded up to 2.25" to connect with a custom exhaust system. A pair of show quality polished stainless steel double-wall tips with precision fit cones are welded on to finish the look. Clamps sold separately. These are not a direct fit with original 65-66 GT exhaust systems.

64-67	715 Holley, Stainless	MGL012S	\$22.95 EA

CARBURETOR ACCELERATOR PUMP

This Diaphragm Pump mounts on the front all 64-73 Autolite 2V carbs as well as 64-67 Autolite 4V Carbs. With today's Gas these commonly

fail, especially when sitting for extended periods of time. Complete failure will cause dangerous fuel leaks, but many times these will affect performance well before a leak actually starts. Good idea to replace every 2-3 years or if sitting for 6 months or more.

Year	P/N	List

FEATURED ITEM

LEMANS STYLE ALUMINUM GAS DOOR

This beautiful polished aluminum race style gas door is inspired by the gas caps found on vintage Shelby

Cobra race cars. This trick flip-open design functions like the originals used in 1960's racing for quick refuel "pit stops". The outside diameter of the base is smaller at 5.25" to fit on the 64-66 Mustang tail lamp panels. The unique Scott Drake design of the gas door allows installation in four different mounting positions using the factory holes and retains use of the factory fuel filler neck for easy installation. A simple flip of the trigger mechanism pops the door open exposing the twist on gas cap. Gas door has a bright polished finish and includes stainless steel hardware and a twist on gas cap. **Note: Will fit 67-68 cars but access to the trunk lock is limited and requires opening gas door to use trunk key. 69 cars have similar trunk lock clearance issue and minor modification would be required on the back side to fit flush against tail lamp panel.**

FEATURED ITEM

1964-68 ALUMINUM HEATER CORE WITH EXTENDED TUBES

Replace that worn out and leaking heater core with a heavy duty aluminum heater core from Scott Drake. This Scott Drake exclusive is engineered for maximum durability along with easier installation and service. It features extra-long inlet and outlet tubes so they protrude through the firewall. This feature makes heater box installation easier and significantly reduces the amount of time and labor required for removing or replacing heater hoses later on. 100% aluminum construction. Will not fit 1967-68 Mustangs with factory in-dash A/C.

Year	P/N	List
64-68	C5DZ-18476-ET	\$46.95 EA

ALUMINUM HEATER CORE

This is the same basic design as the original but the aluminum construction will allow better heating. Not a generic replacement that does not fit like some others. Made to our specifications. 1969-73 cars requires trimming the heater core end caps for proper fitment.

FEATURED ITEM

CORSO FEROCO CS500 SHELBY STEERING WHEEL

This new Corso Feroce steering wheel is a stunning replica of the wood rimmed steering wheel originally equipped on the 1967 Shelby GT350 and GT500 S. It features a beautifully finished real solid wood with proper finger indents on the back and a black band around the bottom surface just like the originals. The sporty 3 spoke design is brushed stainless steel with 4 chamfered holes per spoke and unique black rubber finger guards. The main center hub is CNC machined aluminum with a satin finish. Concors correct GT350 and GT500 horn button assemblies are available. We also have a Mustang Horn Button option as well. Each wheel comes equipped with a 65-67 mounting hub. 68-73 Adapter sleeve available under part #S7MS-3600-SLV.

IDIDIT TILT STEERING COLUMN

Ididit introduces the first Ford Top Shaft and Ford Turn Signal Switch tilt

steering column for 1965-69 Mustangs! This made to fit column will include a special new floor mount, 8-position tilt, Mustang style knobs & handles and male & female plugs with terminals. ididit's new Mustang column will accept a stock Mustang steering wheel or an aftermarket wheel with an adaptor. By using the stock underdash mount and a coupler (sold separately), the installation is a breeze! The new 8-position tilt 1965-69 Mustang column is available in Paintable Steel, Chrome and Black Powder Coated. Lower shaft is 3/4" 36. Don't forget your installation kit, each installation kit from ididit is specific to your Mustang application. Each ididit column is 100% American Made. **Note: 65-67E require cutting original shaft. The below part numbers are for use with stock steering boxes. For Rack and Pinion add "-RP" which are available as a Special Order for \$25 more.**

MUSTANG CUSTOM GAUGE BEZEL

Owners of 1967-68 Mustangs can now upgrade their dash with modern aftermarket gauges and keep the factory appearance with a

new Scott Drake custom gauge bezel. These precision engineered bezels are made on all new Scott Drake tooling to deliver an OE fit and finish. Each injection molded bezel has authentic features, crisp details and bright chrome trim just like the original. They are engineered with special provisions to accommodate modern aftermarket gauges without compromising the factory look.

CUSTOM 6 HOLE INSTRUMENT PANEL BEZEL

New by Scott Drake, this 1965-66 Mustang

Custom 6 Hole Instrument Bezel is a great way to upgrade your gauge set while retaining the factory appearance. Available with a brushed aluminum insert, metal back walnut insert on aluminum, or black camera case. These high quality bezels are precision crafted to replace your stock unit exactly. Features include: two 3 3/8" holes for a tach and speedometer, four 2 1/16" holes for the gauges of your choice, and integrated turn signal/high beam indicator lens for OEM bulb and connector. Designed to work with most any aftermarket gauges.

CUSTOM 6 GAUGE BLACK INSTRUMENT BEZEL

The Custom Instrument Bezel allows you to run two aftermarket 5" and four 2-5/8" gauges of your choice. We went to great lengths

to ensure compatibility with the 1969 and 1970 dashboards. Rather than offering a flimsy, vacuum-formed product, Scott Drake's solution is made from durable, rigid molded ABS Plastic with an original looking black camera case finish to match RH dash panel and provide a factory appearance. It includes turn signal and high beam light sockets and pigtails.

Year	P/N	List
69-70	C9ZZ-10838-BK	\$249.95 EA

RESTOMOD INSTRUMENT BEZEL WALNUT (SET)

The custom Instrument Bezel was designed to fit both

1969 and 1970 dashes and allows Customers to run two aftermarket 5" and four 2-5/8" gauges of your choice. Made from durable, rigid molded ABS plastic with steel backed walnut woodgrain applique, it delivers a factory appearance on all Mach 1's, Grande's and Deluxe Interior Cars. RH woodgrain insert is included to guarantee a perfect match. Also includes turn signal and high beam light sockets and pigtails.

RALLY PACS & GAUGE PODS

64-65 RALLY PACS

Scott Drake is proud to announce the arrival of our 1965 Rally Pac! This option is

now available to compliment our popular line of 1966 Rally Pacs. Available in all black, or black with chrome hood (pictured to the left). Our Rally Pacs are the only ones that work with most modern ign. systems! With unsurpassed quality, attention to detail & options, Scott Drake Mustang Rally Pacs are the absolute best on the market!

- Features a modern air-core movement tachometer and a quartz movement clock.
- Clock and tachometer faces feature the original style fonts and are back lit for improved visibility at night.
- Housing and bezels are pressure zinc die-cast from our own tooling and coated with a tough crinkle texture.
- Our Rally Pac's include all of the brackets and color coded wire harnesses and easy to follow installation instructions.
- Scott Drake Rally Pacs are the only ones that work with most modern ign. systems!
- Available in the 6 most popular '66 Mustang interior colors, or new Satin chrome.
- Available for 6 or 8 cylinder engine applications.
- 64-65 Features "Mustang" logo on tach face or "Ford" logos late in 2018 under new part numbers.

RALLY PACS WITHOUT IDENTIFIERS

Scott Drake is proud to announce the latest addition to our popular

line of 1964-65 Mustang Rally Pacs. This new addition is solid black and features a plain black center emblem with no other identifiers. When Ford first introduced the Rally Pac it did

not have the Logo so all 1964's and many early 1965's that rolled off the assembly line with the Rally Pac option did not have a logo on it. Late 1965's and all dealer add-ons and over the counter Rally Pacs had the Logo. Scott Drake Rally Pacs are the only ones that work with most modern ignition systems!

RALLY PAC DUAL GAUGE HOUSING

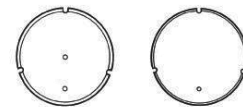

Rally Pac housing and bezels are now available without gauges so that you

may add your favorite gauges for a custom project. Our housing can be mounted on the steering column or under the dash with the use of various brackets, available separately. Modifications are required to make aftermarket 2 5/16 inch gauges fit our housing and bezels. Included in this package are 2 chrome inner bezel rings and 2 gauge mounting compression rings.

MAGIC MAT INSULATION

- 2mm Thickest Material (vs 1.7mm)
- Mil-Spec Construction
- Reduces Noise and Vibration
- Insulates from extreme heat and cold
- Water and oil resistant
- Available in Silver or Black
- Easy Installation with self-adhesive backing

This Premium Sound Deadening Insulation was originally developed for Military use in Europe. Thick 2mm construction out performs leading Competitors that uses 1.7mm sheets. This material excels in insulating temperatures both hot and cold, sound proofing, noise dampening and eliminating resonance and vibrations. Very easy to apply self-adhesive 20" x 29" sheets that form to almost any contoured shapes and cuts easily with quality scissors or razor blade. Ideal for Floor Pans, Firewall, Doors, Roof and Trunks. Not affected by water or oil and adhesive it functional between -45c to 100c. This product is used in many high dollar European Cars and high dollar Car Audio installations and a great way to make your old Classic car more comfortable to ride in. Manufacturer is certified ISO 9001 and rated Q1 by Ford. Available in the standard Silver Foil as well as a Black Foil with an attractive pattern than can be left exposed such as the inside of trunk area. 9 sheets per box for a total of 36 Square Feet.

FEATURED ITEM

SCOTT DRAKE PREMIUM UNDERLAYMENT

Our carpet underlayment features a thick asphalt layer with needled cotton backing commonly found in classic Mustangs of the 1960's and 1970's. The material is made for us by an OEM supplier in Michigan to original standards. It is highly effective as a sound deadner, temperature barrier, and vibration dampner. Die cut in our shop for a perfect fit. A must for a concours restoration. Check our Website for more details.

CARPET & FLOOR MATS

COUPE CARPET KIT

This is the good stuff. 1964-1968 are constructed from 80% Rayon 20 % Nylon, 1969-1970 are 100% Nylon. All edges are

sewn to prevent unraveling. Drivers side has molded, colored keyed rubber heel and toe pad. All carpet is backed with a heavy 27 ounce jute insulation layer. Also features a precut gearshift hole. Fastbacks include small lower quarter panel sections. 1964 carpet does not have toe pad.

SEAT BELT RETRACTOR

A great way to "tidy up" your interior as well as make your seat belts easier to use. Just pre-wind these retractors and

insert the belt into the notches, let go and the belt will roll up and stay in easy reach. Exact copy of Ford accessory.

CONCOURS 3PT SEATBELT BLK W/ LAP BELT RETRACTOR

These premium quality retractable shoulder and lap seat belts are reproductions of the Deluxe belts originally equipped in the front seats of many 1968-69

Ford and Mercury cars. They feature Scott Drake exclusive buckles that are authentic in appearance with correct textures, chrome bezels and markings. Sold individually. Made in the USA and tested to modern safety standards. Does 1 seat mounting hardware not included. **Note: Ford offered more than one size cover on the belt retractor. This**

is the more common low profile version. Also many early 1968's has two completely separate Buckles with later cars having a more simpler "Y" anchor on inboard side with 2 Buckles. For early 1968 cars you will need to order both SB-BK-68-C Retractable Lap Belt & SB-BK-68-C-S Shoulder Belt.

RETRACTABLE 3-POINT SEAT BELT

This product allows you to convert your 1964-67 Mustang Coupe, Fastback or Convertible's seat belts to a safer, modern 3-Point design. This is today's technology for yesterday's classic car. This Seat Belt Kit comes complete with all the hardware needed along with instructions to guide you through the installation. Available in a variety of colors. This Kit will also work on 68-73 Mustangs, but if you use existing roof mounting point, the webbing may be too short for some Drivers. For 1968-73 customers looking for a more original appearance and wishing to use their factory Roof mounting point we offer SB-3P-BK-PBSB in Black only. All of the Seat Belts are made in the USA and are built under the current Governments safety guidelines. One kit does both seats.

PUSH BUTTON 3 POINT SEAT BELT

These 3 Point Seat Belts will bolt onto any 1968-73 Coupe or Fastback using your existing mounting points. For all customers with 1964-67 Coupes or 1968-73 Convertibles wishing to add 3 point Seat Belts to your car you will need to buy two Hardware Mounting Kits, part # SB-3P-HK. The belt buckles are very similar to the original buckles Ford used in the late 1960's and early 1970's and even feature an exact copy of the Starburst emblem. NO MOUNTING HARDWARE INCLUDED.

CONCOURS WINDLACE

CONCOURS CORRECT
"WEAVE" PATTERN

By Scott Drake, an exact copy of previously unavailable Windlace used by Ford in the mid to late

1960's. This PVC Windlace snaps in with ease and features the commonly known "Weave" pattern. Please note Ford used a couple different suppliers of Windlace and their patterns were not identical. Our research found Windlace varied year to year and possibly even month to month depending on vendor supply issues. We also found variances between assembly plants. Please check your original Windlace to make sure this is right for you. Sold by the foot, Fastbacks and Coupes require 16 feet and Convertibles only require 10 feet. For cars that have the Sierra Grain patterned Windlace we have a reproduction that is very similar in appearance and available above.

DOME LIGHT ASSEMBLY

We made a bright chrome base with a brighter than original bulb to really improve lighting inside the car.

We include instructions on how to easily add this dome lamp to earlier Mustangs that didn't have this feature. Our dome light assembly can even be mounted up under the back deck to make a great trunk light. Our reproduction dome lens and chrome bezel as well as the mounting hardware and electrical connectors are included to make this a quick and simple project.

COMPLETE CONSOLE ASSEMBLY

This complete console assembly for 64-66 Mustangs features a full length paintable black ABS plastic housing with all appropriate chrome die cast trim installed as well as ash tray, rear courtesy lamp, wire harness, shifter bezel and shifter boot (manual transmission), shifter plate assembly (automatic transmission). Console comes fully assembled and ready to install. Convertibles must trim bottom side of console to clear floor reinforcement, this is clearly marked on the backside to eliminate guess work. Mounting hardware available under part number CMK-656 and C5ZZ-65045B32 front mounting bracket will be required for cars that originally did not have a console.

RARE FINDS MUSTANGS AND FORDS

Rare Shelby, Boss, Cobra Jet Mustangs. And high performance Fords have been residing in automotive cocoons... holed up in barns, storage buildings, garages, and other nook and crannies. As the automotive Indiana Jones, Jerry Heasley has

been tracking down and capturing stories of the rarest and most valuable and sought-after Mustangs and high-performance Fords for more than 25 years.

1001 MUSTANG FACTS BOOK

Author Steve Magnante is well known for his encyclopedia-like knowledge of automotive facts. The details he regularly shares, both in the pages of national magazines and as a contributing host and tech expert at the popular Barrett-Jackson Auctions

on television, are the kinds of details that car fanatics love to hear. Steve turns his attention to the most popular car in history, the Ford Mustang. In more than 50 years, the Mustang has taken many turns, from the original pony car, to variants that are best described as pure muscle cars, to the misunderstood Mustang II, to the Fox-Body platform that revived the brand, all the way to the modern Coyote- and Voodoo-powered supercars. Magnante covers them all here, generation by generation. Whether you're an avid fan of all Mustangs, a trivia buff who wants to stump your friends, or have a particular affinity for a particular era of Mustangs, this book is an informative and entertaining collection of facts from one of the industry's most beloved and respected sources.

OUTSIDE MIRRORS

1964-66 MUSTANG CONCOURS OUTSIDE MIRRORS

Scott Drake Show-Quality Mustang Mirrors are the best on the market! Our mirrors feature flawless chrome, perfect details and a perfect fit. These mirrors fit both RH and LH side, but we

recommend our convex glass mirrors for the RH side for a greater field of vision. Available in 2 finishes for an original or custom look: chrome, or satin chrome. All Scott Drake mirrors come complete with a new base pad and mounting screws. **We now offer a long base for a custom look on 67-73, also an ideal way to cover-up pre-existing holes from an incorrect mirror on 64-66.**

Year	Desc.	P/N	List

RH SPORT MIRROR CONVEX GLASS

New by Scott Drake is our 1969-73 Mustang Convex Sports Mirror Glass. Our convex mirror glass is designed to be used

on right hand (passenger side) sports mirrors to help eliminate the blind spot associated with original flat glass. The mirror glass can be installed directly over the original mirror glass. This will allow for removal of the convex glass if you want to return the Sports mirror back to its original state. **Note: will not fit left hand (drivers side) mirrors.**

MUSTANG MIRRORS WITH LED INDICATORS

Scott Mustang Deluxe Remote Mirror Kits with LED indicators! Modern cars have LED indicators built into both mirrors for safety. Classic cars and especially Mustangs have a lower profile than most modern cars. Make sure that your car is noticed when you change lanes with our new LED turn signal indicating mirrors. This safety feature helps prevent side collision accidents by giving cars in your blind spot plenty of warning if you need to change lanes. The LED Mirrors are made with our Show Quality Reproductions and look factory correct. Superbly detailed to pass even the most critical inspection. RH side is also made using Convex glass to improve your field of vision. Equipped with patented electronics these reliable LED turn signal indicators blink only when they are supposed to which is when you activate your turn signals not when you hit the brakes like all other kits. Super simple hook up in to

existing turn signal wiring with NO special or complicated control boxes to worry.

ACCUMATCH™ DETAIL BLACK PAINT

AccuMatch™ Detail Black is formulated with a correct 15% semi-gloss finish to match original OEM shades, and it's extra-high pigment content provides superior coverage over similar paints. Ideal for pulleys, brackets, engine aprons and most other underhood/

chassis components. Provides extra protection against rust and corrosion to help prolong the life of your vehicle's valuable components.

Year	Desc.	P/N	List
64-73	OEM detail black	RP-103	\$9.25 EA

ACCUMATCH™ INTERIOR DYES

This proprietary formula is approved by Ford and meets Ford OEM performance specifications. It penetrates and chemically bonds to any clean surface. Will not crack, flake or peel. This does it all: Vinyl, Carpets, leather, hard plastic, exterior trim, convertible tops and metal. Really anything

associated with a vehicle. Actually penetrates and chemically bonds, will not crack, flake or peel. Quick Drying formula, so parts can be touched and installed in as quick as 10 minutes. Will not fill in grain pattern. Truly an OEM finish in an aerosol can. Yes a little more money but well worth it. When painting the outside of your car, do you typically buy the cheapest paint you can find? LP-383 and PP-2322 are recommended for professional results.

RTM - FIBERGLASS SHELBY HOOD

These Fiberglass Hoods are manufactured using the RTM method (Resin Transfer Mold), which produces a consistent part in both fit and appearance

unlike chopped or hand-laid fiberglass hoods that vary from part to part. Also, although not concurs in appearance for original Shelby's, the RTM process gives a clean factory appearance underneath, rather than a typical aftermarket fiberglass hood. It will still require additional prep work compared to sheet metal hoods.

FEATURED ITEM

NEW

SCOTT DRAKE PREMIUM UNDERLAYMENT

Our carpet underlayment features a thick asphalt layer with needled cotton backing commonly found in classic Mustangs of the 1960's and 1970's. The material is made for us by an OEM supplier in Michigan to original standards. It is highly effective as a sound deadener, temperature barrier, and vibration dampner. Die cut in our shop for a perfect fit. A must for a concours restoration.

Year	Desc.	P/N	List

MAGIC MAT INSULATION

This Premium Sound Deadening Insulation was originally developed for Military use in Europe. Thick 2mm construction outperforms leading competitors that uses 1.7mm sheets. This material excels in insulating temperatures both hot and cold, sound proofing, noise dampening and eliminating resonance and vibrations. Very easy to apply self-adhesive 20" x 29" sheets that form to almost any contoured shapes and cuts easily with quality scissors or razor blade. Ideal for Floor Pans, Firewall, Doors,

Roof and Trunks. Not affected by water or oil and adhesive it functional between -45c to 100c. This product is used in many high dollar European Cars and high dollar Car Audio installations and a great way to make your old Classic car more comfortable to ride in. Manufacturer is certified ISO 9001 and rated Q1 by Ford. Available in the standard Silver Foil as well as a Black Foil with an attractive pattern than can be left exposed such as the inside of trunk area. 9 large sheets per box for a total of 36 Square Feet.

FULL LENGTH FLOOR PAN

Replace the whole side at once and save time. They are exact replacements for 1964-68. 1969-70 Mustangs have different ribbing

configurations. 1971-73 cars can use the 64-73 floor pans but requires modifications, therefore we recommend our new correct 71-73 pans.

SHELBY SIDE SCOOP

A quality reproduction of the Shelby Side Scoops. Ready to fit and paint. **New improved tooling.**

Year	P/N	List
65-66	S1MS-6529076/7	\$79.95 PR

FUNCTIONAL SIDE SCOOP

Available from Drake are these 1967-68 Mustang Lower Quarter Functional Side Scoops. These

are reproductions of early 1967 Shelby's that were functional for brake cooling. By mid-1967 Shelby stopped using this feature. Minor trimming to back sides of scoops on cooling tube is required if you do not want to make them fully functional.

Year	P/N	List
67-68	S7MS-6529076/7	\$304.95 PR

NON-FUNCTIONAL SIDE SCOOP

Available from Drake are these 1967-68 Mustang Lower Quarter Non-Functional Side Scoops.

These are reproductions of the ones used on 1968 California Specials. Made from fiberglass, these are non-functional. For the fully functional versions order part # S7MS-6529076/7.

Year	P/N	List
67-68	C8ZX-6529076/7	\$174.95 PR

STEERING

FEATURED ITEM

NEW STEERING GEAR BOX

These all new boxes feature a improved needle bearing design for smoother operation. They are a direct bolt in, no modifications required. Early 67 have 1" sector shaft. Late 67 Ford switched to 1 1/8" sector shaft.

Year	Desc.	P/N	List
64-67E	16:1 ratio, power steering, long shaft	C5ZZ-3548-P	\$599.95 EA
67E	16:1 ratio, short shaft 1" sector	C7ZZ-3548-P	\$599.95 EA
67L-70	16:1 ratio, short shaft 1 1/8" sector	C8ZZ-3548-P	\$449.95 EA

STEERING GEAR BOX COVER SEAL

A leak coming from the steering box can sometimes be traced to the gasket at the steering box cover.

P/N	List
C3DZ-3581-A	\$3.95 EA

STEERING BOX REBUILD KIT

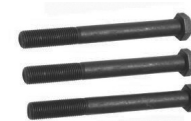

This steering box rebuild kit can tighten up that loose, drifting feeling. Cover seal sold separately under part #C3DZ-3581-A.

Year	Desc.	P/N	List
64-67	1"	C5ZZ-3548-RK	\$94.95 KI
67-70	1 1/8"	C7ZZ-3548-RK	\$94.95 KI

STEERING BOX FRAME BOLTS AND WASHERS

Concours correct for 1964-68 Mustangs. Will also fit 69-70 but not concours.

1965-69 BILLET PS PUMP BRACKET

This CNC-Series billet aluminum power steering bracket kit provides a strong and stylish mount for your power steering pump. It's designed to fit all 65-69 Ford power steering pumps

when mounted on a 289/302. High quality installation hardware is included. **Note: Will not fit Eaton power steering pumps or later model water pumps with driver side outlet.**

P/N	List
B-F553	\$79.95 SE

1965-73 BILLET POWER STEERING PUMP PULLEY

This CNC billet aluminum power steering pump pulley is designed to work exclusively on Ford power steering pumps. Depending on year and engine size Ford offered 2 different diameter

pulleys, a 5" and 5.5". Be sure to measure your original to get the right diameter. They are interchangeable and both will work for just about any application. This smaller 5" version provides more power assist at low RPM especially idle but not ideal for racing or high RPMs. The larger 5.5" is best suited for high RPM and high speed driving.

POWER STEERING

POWER STEERING CONVERSION KIT

The conversion box is a remanufactured modern integral power steering gearbox. It provides true modern power steering feel, feedback and sporty 16:1 ratio. It has been remanufactured to bolt directly to the factory mounting location and to fit the stock pitman arm without any interference or modification of the shock tower. 1965-67 Mustangs will require replacing column shaft. 68-70 Mustangs will need the factory column collapsed 1-2" for clearance. Eliminate your leaky control valve and sloppy steering. Feel the road with our new integral power steering conversion kits. We offer both Kits to convert from MS to PS and Factory PS to PS. Please note Factory Ford Pumps work fine with these Kits above Idle but will offer very little power assist under 800 RPM's. We can special order a PS to PS Kit with a modern Saginaw Pump that is more effective at Lower RPM's. **Note: Manual Transmission cars must run a special Clutch Equalizer Bar or a Clutch Cable Set-Up, both are available in the Transmission section (Big Block Equalizer not available at this time). Due to the fact that there are 8 possible kits for 1967, some will cross-over to listed kits, and others are available as special order, so please call. Early 1967 Cars with the Long Shaft that are converting from PS to PS will be required to also purchase a C7ZZ-3304-AD Adapter.**

IDIDIT TILT STEERING COLUMN

Ididit introduces the first Ford Top Shaft and Ford Turn Signal Switch tilt steering column for 1965-69 Mustangs! This made to

fit column will include a special new floor mount, 8-position tilt, Mustang style knobs & handles and male & female plugs with terminals. Ididit's new Mustang column will accept a stock Mustang steering wheel or an aftermarket wheel with an adaptor. By using the stock underdash mount and a coupler (sold separately), the installation is a breeze! The new 8-position tilt 1965-69 Mustang column is available in Paintable Steel, Chrome and Black Powder Coated. Lower shaft is 3/4" 36. Don't forget your

installation kit, each installation kit from ididit is specific to your Mustang application. Each ididit column is 100% American Made. **Note: 65-67E require cutting original shaft. The below part numbers are for use with stock steering boxes. For Rack and Pinion add "-RP" which are available as a Special Order for \$25 more.**

FEATURED ITEM

CORSO FEROCCE SHELBY STEERING WHEEL

This new Corso Feroce steering wheel is a stunning replica of the wood rimmed steering wheel originally equipped on the 1967 Shelby GT350 and GT500. It features a beautifully finished real solid wood with proper finger indents on the back and a black band around the bottom surface just like the originals. The sporty 3 spoke design is brushed stainless steel with 4 chamfered holes per spoke and unique black rubber finger guards. The main center hub is CNC machined aluminum with a satin finish. Concours correct GT350 and GT500 horn button assemblies are available. We also have a Mustang Horn Button option as well. Each wheel comes equipped with a 65-67 mounting hub. 68-73 Adapter sleeve required

SUSPENSION

CLASSIC MUSTANG

PROGRESSIVE RATE COIL SPRINGS

These springs allow your Classic Mustang to take advantage of the latest suspension technology and perform more like a modern sports car. They really do give you the best of both

worlds. A fairly stock smooth ride during normal driving, but as the springs compress under load (primarily during braking and cornering) they progressively become firmer very quickly to offer the handling characteristics similar to our 600 pound performance springs, but without sacrificing ride comfort. These progressive rate springs are suitable for long pleasant family road trips as well as a variety of autocross and race courses. These are a little more money, but well worth it if you are looking for the best money can buy. Made exclusively for us in the USA by a premier OEM supplier (for strictly race car applications we still recommend our Performance Springs). Our Progressive Rate Coil Springs feature: Hot wind from SAE5160H, oil quench, temper, water quench, shot peen, preset, 100% load test, ground flat and black powder coating. These springs will sit your vehicle slightly lower than our Stock Coil Springs, actual drop will vary with overall car weight. These are not lowering springs. Springs can be trimmed if necessary. We do not recommend big block springs on small block cars.

Year	Desc.	P/N	List

RUBBER SPRING INSULATOR

Year	Desc.	P/N	List
64-73	Rubber - original 1/8" thick	C4DZ-5415-AR	\$5.25 EA

POLYURETHANE COIL SPRING INSULATOR

Scott Drake added another improved part to the Classic Mustang product line with these new and improved Coil Spring Insulators. The

inner lip is now thicker to prevent tearing and taller to keep it centered in the spring. It also has an added spring indexing stop to help prevent it from moving and allow the spring to seat properly. These coil spring insulators are made from long lasting polyurethane so they last longer than standard rubber ones. 1" version does not have indexing stop.

FEATURED ITEMS

64-66 V8 SPINDLES

These spindles were obsoleted long ago by Ford and have become increasingly expensive and extremely difficult to find and now Scott Drake has the answer. Our Engineering team started with a set

of used, but excellent condition, Ford originals, to create 3D scans which were then used for CAD modeling and then double checked against original Ford blueprints. No corners were cut on this critical component –they were constructed from FORGED JIS S45C grade steel, then we applied a protective, black e-coating and then all surfaces were precision machined. We took special care to ensure bearing tolerances were identical to Ford's. For an extra measure of safety and durability, the spindle snout was also heat-treated via induction hardening. Also fits 1964-1965 Falcons. **When performing a V8 conversion on 6 cylinder cars, we recommend our 6cyl to V8 Steering Conversion Kit available under part number C5ZZ-3304-8CK that is coming fall of 2018.**

HEAVY-DUTY STRUT ROD BUSHINGS

These premium bushings are made from Synthetic Elastomer that provides very similar handling performance and longevity

when compared to Polyurethane but without the squeaking. This modern material is firmer than OEM Rubber but has a slightly softer durometer than traditional Polyurethane which will improve overall ride quality by eliminating some of the harshness associated with Polyurethane. A great compromise that allows you to get both comfort and performance at the same time. Steel Sleeves and correct Washers included if required. The correct 1 1/16x18 Nuts available under part # 380460-S for 67-73.

1964-1966 ADJUSTABLE PERFORMANCE STRUT RODS

Great way to upgrade the suspension on your 1964-1966 Mustang. Unlike original strut rods that were non-adjustable, these performance strut rods are fully adjustable. This makes adjusting the caster a breeze on the front suspension. Solid billet aluminum mounting clevis attaches directly to the strut rod bracket, eliminating lower control arm movement during acceleration, cornering and braking. Grease-able carbon steel Heim joints with sintered bronze races allow necessary articulation during the up and down travel of the control arms. Left- and right-hand threads allow easy adjustment after installation and jam nuts maintain settings. Beautiful long-lasting black and silver powder coat finish. Grade 8 hardware and nylon-insert lock nuts provided.

MONTE CARLO BARS

This bar was originally developed by Carroll Shelby to stop shock tower flex and maintain proper wheel alignment during hard cornering. This extra support also helps prevent shock tower stress cracks. Copied from the original design, our bars feature a new thicker diameter tube and improved fender brackets. We have also stamped square holes in the top of each fender bracket to allow for the use of lower profile carriage bolts. We have a variety of finishes to match the look of any engine compartment, and all our bars are individually packaged to protect the finish.

Black: Our black powder coat has a beautiful finish to compliment the rest of the engine compartment.

Chrome: Our chrome finish has a very bright shine to give your engine compartment some extra pop.

All of our Monte Carlo bars are available in straight or curved versions.

RACE MONTE CARLO BAR WITH HEIM JOINTS

We took Carroll Shelby's original, great idea one step further by making it fully adjustable to fit all car widths. There are a lot

of variations due to initial assembly, shock tower fatigue or previous accident. With the adjustable heim joints, install is a breeze. This style also allows for bar to be removed easily for engine repairs.

FEATURED ITEM

PERFORMANCE SWAY BAR

We make these from premium spring steel that is shot-peened, tempered and uses heat induction form ends to enhance durability and strength. From the precision fit, zinc-plated pillow brackets with polyurethane bushings that feature an anti-slip and pre-slit shoulder (for easy installation) to the grade 5 hardware that is also zinc-plated, our sway bars follow the OE manufacturer's spec for original shape for proper clearance. With Scott Drake, there's no question about how it will fit or how your car will perform - we're driven beyond perfection. **Note: 67-70 also fit Cougar and these should clear most Big Block's Oil Filters however due to the 1 1/8" sway bar's large diameter very limited space and slight variances from car to car a special oil filter (such as Motorcraft FL-400) or spacers may be required on 390-428 cars.**

ORIGINAL 4-LEAF REAR SPRINGS

These premium springs are made using high-quality spring steel to assure a smooth, stable ride that will last for years. Features OEM style clamps, correct "hot cupped" ends, anti-squeak pads, front eye bushing installed

and OEM 4 leaf design. They will also help lift that sagging rear end. Ford originally listed more than 24 different part numbers for the Mustang between 1964-73. The parts varied only slightly, depending on body style, options, engine size, handling options, and transmission. Scott Drake has chosen 2 different springs as the most universal and one of these should meet most customers' needs. Choose from either C5ZZ-5560 which has a slightly stiffer rate and higher arch. But it may raise your car higher than it's original stock height depending on total weight of the vehicle. This is especially true on early model 6-cylinder cars. Still this is the more popular spring as most customers do not like the traditional slightly lower in the rear look that Mustangs are infamous for. But if an original lower ride height is more what you are after we also offer a Light Duty version under part number C5ZZ-5560-S. Although we make absolutely no guarantees about actual ride height on your particular car, as there are many variables to contend with, please find the below comparison we did between the two springs to give you an approximate idea of ride heights you can expect. The test was done on a 67-68 coupe and measured at the top center of the rear wheel arch. **(Note: 64-66, 69-70 and 71-73 wheel arches are not exactly the same so their measurement would vary. The test car had 215-70-14 tires on it. On the test car our C5ZZ-5560 measured 26.75" and the C5ZZ-5560-S measured 26". Once again, these measurements will vary from car to car depending on tire size, tire pressure, full or empty tank, and overall weight; but you can expect your car to sit about 3/4" higher with C5ZZ-5560 over C5ZZ-5560-S.**

PERFORMANCE REAR LEAF SPRINGS

We offer a large selection of performance leaf springs in both 4.5 and 5 leaf versions to suit any driver, and any application on or off the track and at any ride height. These premium springs are made using high-quality spring steel to assure a smooth stable ride that will last for years. Painted detail gray to look as good as they perform. 1" and 2" lowering versions refer to drops compared to standard eye heavy-duty 5 leaves which may sit slightly higher than original depending on year and original options your car was equipped with.

CONCOURS UNDER RIDE TRACTION BARS

New concours reproduction under-ride traction bars for 64-66 Mustangs are now made by Scott Drake.

These are reproductions of the traction bars originally installed on 66 Shelby GT350 S by the factory to eliminate axle wrap and wheel hop. They feature authentic details to perfectly match the appearance of the originals. The heavy-wall tubular bars have cast ends with correct "M-1" markings. The unique 3-bolt cast axle mount brackets have accurate "10-70" markings just like they did in 1966. The original bars were made from thin wall tubing and are prone to bending. Scott Drake traction bars are made to handle more power with super strong .187 wall tubing that is twice the thickness of the competition. Each kit is finished in a durable semi-gloss black powder coating for a lasting show quality appearance. Rubber bushings, alignment spacers and zinc plated grade 8 hardware are included. **1967-70 axle mount brackets are fabricated just like the originals.**

Precision frame mount brackets are contoured to mate with the frame and finished in copper paint.

Rubber Bushings & Zinc Plated Grade 8 Hardware Included

Unique 3-bolt cast axle mount brackets feature authentic "10-70" markings.

Heavy-wall tubular traction bars feature cast ends with the correct "M-1" markings.

AUTOMATIC SHIFTER HANDLE

Scott Drake offers the most extensive line of Automatic Shift Handles. Several we are exclusive on. Most Vendors traditionally have sold C5ZZ-7213-F

as being correct for 1964-1973. Although it does fit all years it is only Concours Correct for 1965-1968 Cars. Early 64 cars had a slightly smaller Handle that is not available. However we do now offer the Concours Correct 69-73 Standard Interior Automatic Shift Handle under part # C9OZ-7213-B which is different in overall shape to the C5ZZ-7213-F. 69-73 Owners on a Budget can still use C5ZZ-7213-F. We also offer 67-73 Deluxe Interior Automatic Shift Handles in assorted Colors. Although not original for those that like the feel of Leather over Plastic we offer a Black Leather covered version as well.

Year	Desc.	P/N	List

STYLED STEEL HUB CAPS

Scott Drake Mustang Hub Caps feature show-quality chrome plating, perfectly detailed lenses, and correct accent colored backgrounds. Our new

and improved retaining system now makes them easier to install and prevents them from falling off or being stolen. These are the finest reproductions on the market at very competitive prices. Choose original colors: Red for 64-66 and blue for 67, or customize your car with a color better suited for your Mustang. **Note: Will not work on Legendary alloy wheels.**

Falcon

FALCON BLACK FLOOR MATS

Ford originally offered the Mustang owner personalized rubber floor mats and they continue to be a very popular and practical accessory today. We felt that Falcon owners deserved the same luxury option to accessorize, as well as, protect their expensive carpet. Front floor mats include both the Falcon Bird and Falcon Script and are licensed by Ford Motor Company. This 4-piece kit will fit all 1960-70 Ford Falcons, as well as all years of Australian-made RHD Falcons.

FALCON DISC BRAKE CONVERSION KIT

Converting your front drum brakes on your Falcon to a safer more reliable and powerful disc brakes just got easier with the introduction of

this new premium conversion kit from Scott Drake. This complete bolt-on system is not a Mustang Kit that must be modified for your Falcon but specifically designed for a Falcon installation. Includes everything needed to convert the Falcon manual front drum brakes to factory style 4 piston disc brakes utilizing the original 64-65 V8 and all 66-69 drum brake spindles. There is no cutting, drilling or welding required. Each kit consists of all new components with premium features like drilled and slotted rotors, zinc plated calipers loaded with stainless steel pistons, a dual reservoir master cylinder and an adjustable proportioning valve. Get dependable performance and keep the factory look with a Scott Drake disc brake conversion kit. **Note: Minimum wheel size: 14" x 7". Fits 1964-69 V8 drum brake spindles. Note it fits 1966-69 6 cylinder spindles but converts the vehicle to 5 lug bolt pattern. Will not fit 1960-65 6 Cylinder spindles**

Year	Desc.	P/N	List
64-69	Standard Rotors	DBC-A122-F	\$899.95 KI
64-69	Drilled and Slotted Rotors	DBC-A122-F-DS	\$999.95 KI

FALCON POWER BRAKE KIT (DISC, DUAL CHAMBER MASTER CYLINDER)

Get the increased stopping power you need for any 1963-65 Falcon (A/T or M/T) in a very easy to

install unit. This setup utilizes a new Bendix style power brake booster with increased sensitivity and a 1 year warranty,* new large capacity dual chamber master cylinder, specially designed mounting bracket to allow direct bolt in while retaining original brake pedal assembly and clearance of the shock tower. The push rod is preset but is adjustable to move the pedal height up or down. The factory shock tower brace will need to be notched for clearance. The only other modification necessary is the bending of new lines from the master cylinder to the distribution block. We also offer a rebuilt distribution block part number C7ZZ-2B257-A. This part may be required depending on what your car is currently equipped with. This part is recommended for all 1964 - 1966 disc brake cars. 1967 - 1970 cars already have one from the factory but it is a good idea to replace it. This kit is easy to install and works excellent on both drum and disc brake cars. This is a very economical solution for customers that are looking for an improved braking system along with the added safety of a dual chamber master cylinder. **Note: Booster requires a minimum 15 pounds of engine vacuum pressure at idle for maximum stopping power. Some high performance high lift camshafts may not create enough vacuum. Stock engine vacuum pressure is 18 pounds.**

Year	Desc.	P/N	List
63-65	Falcon Power Brake (Disc, PBC-F-D Dual Chamber Master Cylinder)	PBC-F-D	\$369.95 EA

DOUBLE HUMP HI-PO AIR CLEANER ASSEMBLY

Scott Drake is proud to announce the release of new reproduction "Double Hump" HiPo Air Cleaner Assemblies. These authentic units are modeled after the extremely rare 14" air cleaners that were standard on 260s and early HiPo 289s found in 1963 - 1965 Ford Fairlane, and 1963 - 1965 Falcon Sprint. Unlike other HiPo air cleaner assemblies, these feature a unique "Double Hump" chrome lid rather than the more common "flat top" lid used on later model HiPo engines. The lid also has two indents to lock the wing-nut in place securely. The base of the assembly omits the breather port and is finished in a semi-gloss black like the originals. Attention was paid to the filter as well to match the original design with a yellow filter element, a round hole perforated screen and orange gasket material to complete the authentic appearance. Make your restoration stand out from the crowd with this premium quality reproduction of the highly sought after "double hump" air cleaner.

ALUMINUM VALVE COVERS

Made by Scott Drake, Classic Aluminum Valve Covers for small block Ford engines!

These valve covers are die-cast from high-quality 383-3 aluminum alloy, and then given a durable powder-coated wrinkled finish or polished aluminum finish. They also feature a cadmium plated oil filler tube to help stop corrosion, an improved oil baffle design to accommodate high-lift cam shafts, and will work with most roller rockers. Spark plug wire brackets and PCV grommet included. Available in a variety of styles. Will not fit EFI cars.

FEATURED ITEM

FALCON STEERING BOX

Scott Drake now offers their own brand of new steering boxes. These new Falcon Boxes complement our existing Mustang Boxes. They feature a quicker 16:1 ratio for a very responsive and precise steering system and improved needle bearing design for smoother operation. The direct bolt in design requires no modifications or core charge to hassle with and a 1 year warranty. Drake's 1964-1965 steering boxes feature the exclusive solid shaft design just like the originals. The 16:1 ratio is the same ratio used on all high performance mustangs (GT, "K" car, Shelby, Mach 1 and Boss models). Power Steering cars also feature the 16:1 ratio. Most of these boxes are worn out after 50+ years of service and are not rebuild able. Scott Drake's new boxes eliminate play in the steering wheel, hesitation and wandering. It improves high speed tracking and an overall sense of control. This is an excellent upgrade for regular production Falcons with the slower 20:1 ratio.

Year	Desc.	P/N	List

FALCON LEGENDARY WHEEL CENTER CAP

Scott Drake Legendary Wheels is excited to offer Falcon owners a beautiful die-cast zinc, show-quality, chrome-plated hubcap worthy of their pride and joy. Although Ford never originally offered a specific Falcon hubcap (they had to share the Ford Crest logo with the Fairlanes!), we believe if they would have offered it in the 1960's, this is what it would have looked like. This officially licensed hubcap has Ford's seal of approval as well. This will fit on most Scott Drake Legendary Wheel Alloy Rims. This will fit on most Scott Drake Legendary Wheel Alloy Rims.

BRONCO STAINLESS STEEL SHORTY HEADERS

Bolt-on horsepower and torque with these short-tube headers by Drake. These headers are designed to fit 66-

77 Broncos with 289/302 motors with ample clearance for most modified suspensions. They are engineered to make strong power and torque throughout the RPM range with

smooth mandrelbent 1-1/2" primaries and 2.5" collectors. Each header is manufactured with heavy-duty features like extra-thick 3/8" laser cut flanges to guard against warping and heavy-wall 16 ga tubing for maximum durability. Made from 304 Stainless Steel ensures these will last for many years to come. This header system includes high quality hardware, premium laminated metal core gaskets and heavy duty ball and socket flanges for a leak proof installation. Also includes "O2 Ports in Collectors for EFI conversion.
